WORK EXPERIENCE

MY PROJECT AS FRONTEND DEVELOPER (PART-TIME)

(2022-Present)

• Task tracker

Application build with React/Redux/TypeScript and Material UI library. Using React-hooks, Axios and Rest API. Project architectural solutions (layering UI, BLL, DAL). Performance enhancement (memo, useCallback, lazy, etc.)

• Social network

Social Network SPA created with React, Redux for state management, TypeScript for scalability. Development and update components with React; RESTful (Registration/loginization/pagination etc);

• Blanchard

adaptive, pixel-perfect layout for an art gallery website. HTML, CSS, JS, BEM

GEOLOGIST ENGINEER

(2020-2022)

- Working with normative and technical documentation
- development of a report on engineering and geological surveys in compliance with GOST and customer requirements
- communication with the customer
- writing scripts to automate work
